

22 Bedroom House - Los Silos - 8765

Property type	House		
Location	Los Silos		
Views	Mountain view		
Sale	480 000 €	Reference	8765
Land	3273m²	Built area	513m²
Garden area	1462m²	Bedrooms	22
Bathrooms	4		

For sale: Canarian native house from 1890 in the historic centre of Los Silos, just a few steps from the village square.

It is surrounded by some stately houses that have survived around the Plaza de La Luz, where you can also find the renovated former convent of San Sebastián, the Casona de los Trujillo, seat of the Town Hall, and the church of Nuestra Señora de La Luz.

Originally there were two houses that have been unified and share the 2,760 m² garden. It is on two floors, with the ground floor containing the entrance, several rooms and the courtyards leading to the upper floor and the garden.

The plot also includes a water tank, a small house for storage and another house of approximately 50 m² with one bedroom, living room, kitchen and a bathroom which is currently habitable.

The house is completely to renovate and a hotel and catering licence is allowed, perfect for a rural hotel. The property comprises an urban plot of 2.170 m² included in the price.

Los Silos is located in the north-western part of the island, in the natural region called Isla Baja, bordering to the north with the Atlantic Ocean, to the south with the municipality of Santiago del Teide, to the east with the municipalities of Garachico and El Tanque, and to the west with Buenavista del Norte.

Los Silos offers, above all, peace and quiet. It is equally recommendable to take a stroll along the coast, where you can enjoy magnificent bathing spots, as well as through its natural spaces, full of trails.

On the coast there are three heritage sites of great importance. In the area of Sibora, the sugar mill built at the end of the 19th century, which ceased production at the beginning of the 20th century. Also in the same area, and crowning the well-known Agua Dulce beach, is the telecommunications hut that served in the 20th century as a connection for the submarine telephone cable that linked the island of La Palma with Tenerife. And in the area known as El Puertito, there are two lime kilns built at the end of the 19th century, which ceased production in the middle of the 20th century.

The municipality is home to two federated football clubs, as well as the Aregume Basketball Club and the Isla Baja Diving Club.

A visit says more than a thousand words; get in touch to see the charm of this property.
